SUMMARY

Aspiring Full-Stack Developer with strong problem-solving skills and a passion for building efficient, scalable web applications. Proficient in both front-end and back-end technologies, with hands-on experience in developing real-world projects. A fast learner with a keen interest in optimizing performance and enhancing user experiences. Eager to contribute to innovative teams and grow in the tech industry.

TECHNICAL SKILLS:

- Frontend: HTML, CSS, JavaScript, React.js, React Native, Bootstrap, Tailwind CSS
- Backend: Node.js, Express.js, PHP, VB.NET, ASP.NET, Java, Ruby on Rails
- Database: SQL, MySQL, MongoDB, PostgreSQL
- Version Control: Git, GitHub
- Other Tools: Visual Studio, Postman, Adobe Photoshop, Adobe Illustrator, EDIUS
- Programming Languages: C++, Java, Ruby

INTERNSHIP EXPERIENCE

Full-Stack Development Intern - <u>Diffiter</u> | Remote / Ahmedabad | May 2025 - Jul 2024 | github

- Developed PDFBuilder, a Rails-based web app offering tools like Split PDF, Compress PDF, PDF to PowerPoint, and PowerPoint to PDF.
- Built a secure user authentication system and database integration, enabling users to store and access their documents anytime.
- Implemented background job processing for heavy file conversions, enhancing app performance and user experience.
- Designed a clean, responsive UI using Taiwind and JavaScript, improving tool usability across devices.
- Applied version control with GitHub, collaborated with mentors via code reviews, and followed Agile practices for timely deliverables.

HRMS - Leave Management System - <u>Diffiter</u> | Ruby on Rails | Jun 2025 - Jul 2025 | github

- Developed an HRMS application to manage employee leave requests, approvals, and task tracking based on user roles (Admin, HR, Employee).
- Implemented role-based login and access control, ensuring secure and organized data flow across departments.
- Built modules for applying leaves, task assignment, task status updates, and leave approvals with email notifications.
- Integrated PostgreSQL for efficient data management and used Tailwind CSS for a responsive, user-friendly UI.
 - Enhanced workflow automation and reduced manual HR efforts by streamlining the entire leave and task management process.

ACADEMIC & PERSONAL PROJECTS

ACADEMIC

Studio Booking System - Full-Stack Developer / MERN / GitHub

- Built a MERN-based platform for studio bookings with city-wise listings and responsive UI using React & Tailwind CSS.
- Implemented secure email authentication and booking confirmations via Nodemailer.
- Enabled studio profile showcases with media support to boost user engagement.
- Optimized API/database performance, cutting load times by 45% and reducing missed bookings by 25%.

PERSONAL

Dosa.com - Full-Stack PHP / Jul 2024 / GitHub

- Developed a restaurant management system using PHP, MySQL, and JavaScript, streamlining table reservations, online ordering, and QR-based table management.
- Implemented a QR-based ordering system, allowing customers to scan and place orders directly from their tables, reducing wait times by 40%.
- Built a dynamic admin panel for managing reservations, menu updates, and tracking sales, improving operational efficiency by 35%.
- Designed an intuitive customer-friendly UI, leading to a 30% increase in online orders.
- Developed an automated order notification system for kitchen staff, reducing order processing time by 25%.
- Optimized database queries and API performance, improving overall system speed by 50%.

LEADERSHIP EXPERIENCE

College Event Coordinator

TECHASTROM

ANAND, GUJRAT FEB 2024

- Led and organized college-wide events for three consecutive years, managing logistics, budgeting, and coordination of over 300+ participants.
- Represented the class in academic and administrative matters, improving communication between students and faculty.
- Facilitated student engagement initiatives, leading to a 20% increase in participation in extracurricular activities.

Yugantar CVM University ANAND, GUJRAT FEB 2024

- Conducted a hands-on IoT workshop, guiding 400+ students in developing real-world applications.
- Led a team in implementing a smart device prototype, enhancing students' understanding of IoT integration.
- Delivered technical sessions on IoT fundamentals, ensuring 90%+ project completion rate among participants.

EDUCATION & OTHER

CVM UNIVERSITY

2022-2025

Bachelor of Computer Applications 9.20 CGPA

LANGUAGES: Gujarati – Native, Hindi – Fluent, English – Proficient

CERTIFICATIONS & ACHIEVEMENTS:

- Emerging Technologies Skills Oriented Training Under Teerth Scheme (basic Robotics) Education Department Government Of Gujrat, Anand | Jan 2023
- BrainTech in Logo Design in Photoshop- National-Level Event BY CP & FH shah college Winner | Jan 2025
- Technokhoj in Website design by Computer Science Department @ ISTAR-Winner | Feb 2025
- Website Design Competition Intercollege Event | Won 1st place twice in an intercollege website design competition

INTERESTS:

- Solo Travel Exploring new cultures, hidden destinations, and spontaneous adventures
- Innovation & Development Creating and experimenting with new technologies, apps, and solutions
